Gems are the premium in-game currency used to advance players' villages. When players first download the game they begin with 500 Gems (250 of which you are forced to use during the tutorial, and another 8 if you rush the buildings and troops when prompted). Additional Gems can be earned in-game by completing Achievements or clearing Obstacles or purchased with real money. Gems can be used in several ways: There are several items, such as the Pirate Flag, Ancient Barbarian Statue, the Mighty Statue, and Builder's Huts, that can only be purchased with a substantial amount of Gems.

Gems can be used to buy other resources such as Gold, Elixir, or Dark Elixir in varying amounts.

Gems can also be used to boost or finish training Troops in the Barracks and Dark Barracks, boost or finish Spell brewing in the Spell Factory and Dark Spell Factory, and boost or finish Siege Machine production in the Workshop.

Gems can be used to request for Clan Castle troops before the cooldown to do so expires. They can also be used to perform "Quick Donations", which donates troops to others without needing to train them.

Gems can also be used to instantly complete the construction or upgrade of Buildings, upgrades in the Laboratory and Star Laboratory, and the rebuilding of the Ruined Buildings in the Builder Base.

Players can also speed up the production of resource collectors such as Gold Mines, Elixir Collectors, and Dark Elixir Drills for a period of time using Gems.

Heroes can be recovered or their healing rate can be increased by gems.

Gems can be used to purchase Shields of different durations or a 2-hour Village Guard, which will protect your base from attacks.

Gems can be used to purchase Magic Items from the Trader.

In the Builder Base, Gems can be used to instantly obtain the next set of win bonuses. They can also be used to activate the Clock Tower early.

Gems can also be used to change the player's name after he/she has used the free name change with the price increasing by 500 until a maximum of 10,000 according to this post on the official Clash of Clans website.

Gems can be used to purchase additional slots for War Bases in the Village Edit Mode.

Additional information on Gems can be found on the Resources page.

#### Purchasing Gems

Gems are available to purchase in the Treasure menu of the Shop. For more information on prices in multiple currencies, please visit In-App Purchases.

#### Earning Gems

Gems can be earned in the game by completing Achievements. When you complete challenges in the Achievements menu, for example, 'clear 50 obstacles', players are rewarded with Gems. When players gain 3200 trophies, they will

be awarded 2000 Gems (3715 if you count all the Gems awarded by trophies). This is the most amount of gems players can earn from achievements, use them wisely.

Another way to earn Gems is to clear obstacles, which are an infinite (although slow) source of Gems. Obstacles will give Experience and can also give up to 6 Gems whenever they are cleared, although sometimes they may not give any gems at all. There is also a special obstacle known as the Gem Box, which always yields 25 gems when cleared, but they are much rarer than normal obstacles.

Players can also earn gems by completing certain events. For example, 'Win 10 multiplayer battles using 10 wizards'. This kind of event might give you instant gems and XP. The highest amount of gems ever earned from an event is 250 and the highest amount of XP earned is 600 points.

A further (although limited availability) way to earn Gems is to be one in the Top 20 players of the Top 3 Clans. At the end of each two-week period, the Top 3 Clans earn 50,000 Gems for 1st, 30,000 Gems for 2nd, and 15,000 Gems for 3rd; these totals are divided equally amongst the Top 20 players of the respective Clans.

Gems can be mined in the Gem Mine, which is in the Builder Base, though the process is slow, with a maximum production rate of 4.8 gems per day.

Players can win Gems directly from Clan Games if their clan has unlocked the relevant reward tiers.

Any Magic Items won through Clan Games or other means can be sold for Gems.

The August 2019 Season Challenges awarded gems ranging from 5-20, up to a total of 250.

Resource rewards in Season Challenges can be sold for up to 5 Gems if they cannot be fully claimed due to a lack of storage space. The amount of gems earned from this conversion depends on the proportion that cannot be claimed: 1 Gem is given for every 20% of the reward that cannot be claimed, rounded down (to a minimum of 1 Gem).

### Trivia

Clash of Clans is free to play, but contains a premium currency (in this case Gems) available for purchase that gives players in-game advantages. These types of games are called 'Freemium' games.

In real life, Gems resemble emeralds.

As players buy larger amounts of Gems, the cost per Gem decreases.

Many (if not most) high-level players buy large quantities of Gems (these players are often called "Gemmers"); Jorge Yao, who was one of the top players in the world, has stated in interviews that he had spent over \$2,500 buying Gems.

It takes much more gems to heal a hero or to request Clan Castle troops than to finish upgrades or troop training: for example, it takes 7 gems to finish an upgrade or troop training with 20 minutes remaining, but it takes 42 gems to request Clan Castle troops again immediately after requesting and 23 gems to heal a hero with 20 minutes remaining.

Between November 24, 2014 and December 8, 2014, iOS users were able to purchase a Pack of Gems (RED) for \$4.99 to contribute to AIDS research. When they did they received a red shield on their Town Hall. Clash of Clans hack 2021/22 is the best game I've ever played. When it came out, now I'm addicted to this game. I can't stop playing this game because it's the best game to make this game. Thank you, Because it's the best game. It's fun to continue to play more of these games. We like this cooking game. Even though the cooking game of viola division is the best game I played 20 minutes ago, I can't stop playing it because it's the best game. Let's play it all the time. I like them very mGemsh Thank you, anyone who saw it, please answer, tell me who made these terrible and wonderful games, we are playing now, people are more and more addicted to these games, they can't leave here, mainly China, computer, iPad or tablet, wow, I don't know this is the best game until I get it, It's cool, I love him, it's cool, I play this app, I play Clash of Clans cheats, I love him, it's always fun, watching it play, it makes me happy, when I play this game, It let me play for several hours, played for several hours, had a good time, played with friends, family, friends and my parents and sister, like this app, I can do sGemsh games, how do you do these games, I want to know how you do these games. I like cooking. Hot, this is my favorite game now, so I have to try when it comes to it sign out. On the whole, I like his great ideas and put what I expected Nonrecurrent. On Can say "pride" very good Slow and fast work, multi task dining and delivery options you You can play without gas, But your time is limited to God. If you want to spend Gems. I like that. I can play at any time, but this is limited excitation. more, My biggest complaint is that the air bubbles

on the passengers' heads are so small that you can almost see how they feel about them Command's Can you enlarge it? In addition, most of the time, when food is dragged in front of customers, it breaks down and can't be delivered. I think it's because there are too many bubbles Small.si It's fixed, I can pay for it game. No problem paying for a great experience, this game has all the potential, and if it's right, it's worth it. have a try. I'll wait for you there. Go ahead. Great potential! Good job, guys. I like new things.

Players use gems to buy structures and other basic resources, but they cannot use structures and other basic resources to create gems. Players can only acquire them through gem collectors, achievements, and by buying them using real money. In any way, collecting gems is a gruesome and time-consuming process. Who would want to waste so much time, money, and effort just to get a hold of only a hundred gems?

Fortunately, there are hacking sites that offer free gems (coc) online. These sites require users to fulfill certain procedures before they can give users their requested resources. To give you a gist of how these hacking sites work, here are some ways how to get unlimited gems in clash of clans.

Most hacking sites require players to enter their usernames and/or player tags and their game platforms. The primary information serves as a basis to where the hacking sites will deliver the data. Afterwards, the sites verify if the accounts exist. If the verification is successful, the sites will perform a background check on the accounts.

At this time, users can check if the hacking sites had the correct player accounts. Usually, the sites present the accounts' basic information, like the players' username, clan name, experience levels, town hall levels, etc. If the sites have the correct account information, users can now proceed to request the amount of gems they want. Most sites offer various fixed amounts for each resource. Users only need to choose from the range of offers available and hit "Continue."

When all aforementioned steps are finished, the only thing users need to do is the verification process, usually using a Captcha code. This is a crucial step because it prevents bots from abusing the sites' services. For this step, the hacking sites may have various things for the users to accomplish. Some sites redirect users to answer surveys, while other sites ask users to download apps and run them for a certain time. If users finish the Captcha verification successfully, then the sites will deliver the requested resources to them.

To note, surveys are, most of the time, time-consuming. Luckily, there are hacking sites that offer hacks without surveys. With that, how do these Clash of clans gem hack (no survey) run?

Enter username or player tag

Indicate your desired resources

Do the Captcha verification process

In the end, these sites run the same as the other hacking sites do. However, these "no survey" sites are much easier to use, and are time conservative. With these, players can play Clash of Clans as much as they want, without worrying for gems to run out. Clash of Clans Hacks - Get COC Resources Every Time you ...
